Preface

The Art and Design Teaching Module for Form 1 has been developed in response to the introduction of the Competence-Based Curriculum (CBC), a transformative initiative aimed at enhancing education quality and relevance.

This teaching module is designed to support teachers in effectively delivering Art and Design lessons under the new curriculum. Its primary objectives are to; bridge the gap created by the absence of approved textbooks and equip teachers with practical skills and assessments tailored to learners' needs and levels

As the Ministry of Education, we acknowledge the challenges associated with transitioning to a new curriculum. Consequently, this module reflects our commitment to providing teachers with structured guidance, suggested activities, and formative and summative assessments aligned with the CBC's objectives.

While this module serves as a foundational resource, we encourage teachers to supplement it with their own research and innovations to address potential gaps during implementation. The suggested activities and assessments are designed to foster practical and critical thinking skills in learners, ensuring relevance and adaptability across diverse school contexts.

Teachers are encouraged to tailor these suggestions to their unique classroom dynamics and explore alternative approaches when necessary. We hope this module will empower teachers to navigate the new Competence-Based Curriculum with confidence, inspiring and equipping learners with essential competencies, knowledge, skills and values.

Kelvin Mambwe (PhD)
Permanent Secretary- Educational Services
MINISTRY OF EDUCATION

Acknowledgements

The Art and Design Teaching Module for Form 1 is the culmination of a collaborative and inclusive development process. The Ministry of Education wishes to express appreciation to all those who participated in the processes of developing the first ever Module for Form 1 and their valuable contributions. Their invaluable input and expertise have enriched the content and quality of this teaching module.

I also acknowledge the dedication and hard work of the staff at the Curriculum Development Centre, whose tireless efforts ensured the successful completion of the module.

Charles Ndakala (Dr.)
Director - Curriculum Development
MINISTRY OF EDUCATION

Introduction

Welcome to this comprehensive module on Art and Design. This module is designed to introduce form 1 Educators to the fundamental principles and practices of art and design, encompassing various categories, branches and styles. Learners will explore the significance of art awareness and appreciation, covering visual, performing, and literary arts.

Through this module, educators will gain a deeper understanding of:

- ☐ History of Zambian Art
- ☐ Graphic Design
- ☐ Pattern and Design
- ☐ Drawing and Painting from imaginative
- ☐ Drawing from observation
- ☐ Drawing from still Life
- ☐ Figure Drawing

By the end of this module, form 1 educators will be equipped with the knowledge and skills to promote art awareness and appreciation and to develop their learners' creative, technical, and critical thinking skills.

1.2 HISTORY OF ZAMBIAN ART

SUB-TOPIC 1.2.3 POST-INDEPENDENCE CONTEMPORARY ART

Introduction

In this subtopic, learners will study Post Independence Contemporary Art in Zambia which reflects the country's cultural heritage and modern influences. Characterized by a blend of traditional and modern styles, Zambian artists address local themes like poverty, inequality, and environmental concerns.

Some of the notable artists (*Agness Buya Yombwe, Flinto Chandia, Caleb Chisha...*) and galleries (*Moto Moto Museum, Lechwe Trust Art Gallery, Wayi Wayi Art Gallery...*) promote intergenerational conversations and collaborations. Despite the various challenges faced, the art scene continues to grow, driven by individual artists and supporters. Overall, Post-Independence Contemporary Art in Zambia showcases the country's rich cultural identity and its ongoing evolution.

Specific Competence

1.2.3.1 Explain Post-Independence Contemporary Art

Learning Activities

Learning Environment set up:

- ☐ artificial (Artificial Intelligence- AI, smart phone...)
- ☐ in-door (*classroom...*)
- ☐ out-door (*school premises...*)
- ☐ natural (*community...*)
- ☐ technological (*digital and audio...*)

Suggested Learning & Teaching Materials:

- (i) Charts and diagrams on Post-independence Contemporary Art
- (ii) Videos/documentaries about Post-Independence Contemporary Art
- (iii) Art and Design textbooks

Activity 1: Explaining Post-Independence Contemporary Art

Discussion

Task 1: Research on the works of notable Zambian Contemporary Artists

Learners to research on notable Zambian Post-Independence Contemporary Artists

Discussion and Pair Work

Discussion

Task 2: In pairs, analyse specific art pieces that reflect the characteristics of Post-Independence Contemporary Art in Zambia

Tip

Write learners answers on the board as they present and outline researched characteristics of Zambian Post-Independence Contemporary Art

Expected standard: Post-independence Contemporary Art explained correctly

Assessment

- ☐ This will involve evaluating the significance, impact and contributions of the country's cultural heritage, through Post-Independence Contemporary Art

Summary

This topic looked at Post-Independence Contemporary Art in Zambia and how it has changed over the years. The learners explored the Post Contemporary art in Zambia which has evolved significantly, reflecting the countries cultural heritage and modern influences.

SUB-TOPIC 1.2.4 TRADITIONAL DECORATIONS

Introduction

Traditional decorations in Zambia are a vibrant reflection of the country's rich cultural heritage and diversity. These decorations feature a range of artistic expressions, including intricately woven basketry, carved wood items, colourful textiles, and beautiful beadwork. Each of these decorative form carries significant cultural meanings, often symbolizing stories, traditions, and community values.

From the intricate designs of basketry to the symbolic carvings of woodwork and the vibrant patterns of Textiles, traditional decorations in Zambia showcase the country's diverse cultural practices. These decorations not only add beauty to homes and public spaces, but also play a vital role in ceremonies, celebrations, and community life, highlighting the importance of preserving Zambia's cultural heritage.

Specific Competence:

1.2.4.1 Make traditional decorations

Learning Activities

Learning Environment set up:

- ☐ in-door (classroom...)
- ☐ out-door (school premises)
- ☐ natural (immediate environment)
- ☐ artificial (artificial Intelligence- AI...)
- ☐ technological (digital and audio)

Suggested Learning & Teaching Materials:

- (i) Charts and diagrams on decorations
- (ii) Video Tutorials on making decorations
- (iii) Art and Design textbooks

Activity 1: Making traditional decorations (*Hand prints, jewellery...*)

**Discussion /Research**

Task 1: Research the different Traditional Decorations (*Hand prints, jewellery...*) found in Zambia.

**Tip**

Take extra caution to distinguish traditional decorations and where they are locally found

Demonstration and Project work

Task 2: Make traditional decorations (*Hand prints, jewellery...*)

**Tip**

Ensure that the traditional decorations (*Hand prints, jewellery...*) made by the learners are appropriately crafted, stating their respective functional uses.

Expected standard: Traditional decorations made skilfully.

**Assessment**

- ☐ This will involve evaluating the process, product and cultural significance in craftsmanship. Various materials of traditional decorations in Zambia are evaluated by using different criteria, the making, appreciation of cultural significance and artistic value of these creations.

**Summary**

This topic looked at the making of traditional decorations (*Hand prints, jewellery...*) and how technical skills are applied, the cultural significance of the products, creativity and originality applied as well as presentation and display.

SUB-TOPIC 1.2.5 TRADITIONAL ARTIFACTS**Introduction**

In this subtopic, Traditional artefacts in Zambia are physical objects that hold significant cultural, historical, and spiritual value to the country's diverse communities. These artefacts can include masks, sculptures, Textiles and jewellery. These artefacts have distinct Significance in cultural identity, Spiritual significance and historical importance. These help to promote Cultural Preservation, Education and awareness.

Traditional artefacts in Zambia are a vital part of the country's cultural heritage, and their preservation and promotion are essential for maintaining the country's rich cultural identity.

Specific Competence:

1.2.5.1 Create traditional Artefacts.

Learning Activities

Learning Environment set up:

- ☐ in-door (*classroom...*)
- ☐ out-door (school premises)
- ☐ natural (immediate environment)
- ☐ artificial (*Online platforms...*)
- ☐ technological (digital and audio)

Suggested Learning & Teaching Materials:

- (i) Charts and diagrams on traditional Artefacts
- (ii) Video Tutorials on traditional Artefacts
- (iii) Art and Design textbooks

Activity 1: Creating traditional Artefacts (*Basketry, weaving, pottery, beadwork...*)

Research

Task 1: Research on the different traditional Artefacts (*Basketry, weaving, pottery, beadwork...*) found in Zambia.

Tip

Take extra caution to distinguish among the Traditional Artefacts (*Basketry, weaving, pottery, beadwork...*) and where they are found locally.

Demonstration and Project work

Task 2: Create traditional Artefacts (*Basketry, weaving, pottery, beadwork...*)

Expected standard: Traditional Artefacts created skilfully.

Assessment

This will involve evaluating the process, product and cultural significance in craftsmanship and use of material in the creation of traditional artefacts.

Summary

This topic looked at the Creating of traditional Artefacts (*Basketry, weaving, pottery, beadwork...*) and how technical skills are applied, the cultural significance of the products, creativity and originality applied as well as presentation and display.

TOPIC 1.5 GRAPHIC DESIGN

SUB-TOPIC 1.5.1 POSTER MAKING

Introduction

In this subtopic, learners will explore the art of Poster making, focusing on how to convey important messages related to cross-cutting issues such as conservation and social activities. Through creative design, learners will learn to express ideas visually.

Specific Competence

1.5.1.1 Design various posters on crosscutting issues to convey messages.

Learning Activities

1. Identifying examples of posters
2. Designing various posters on crosscutting issues to convey messages (conservations, social activities)

Learning Environment set-up: In-door / out-door (natural, artificial and technological)

- ☐ Classroom with access to design materials (paper, markers, computers)
- ☐ Access to examples of posters (physical or digital)

Suggested Teaching and Learning Materials:

- i. Markers
- ii. Coloured pencils
- iii. Pencils/Pens/brushes
- iv. Paper/ card paper
- v. Paints

Activity 1: Identifying examples of posters

Discussion

Task 1:

Identify and analyse posters that effectively communicate messages on cross-cutting issues (*Gender Based Violence, Betting, Climate change...*)

Tip

Focus on what makes these posters effective. Consider the use of colour, imagery and text.

Activity 2: Designing various posters on crosscutting issues to convey messages on cross-cutting issues (*conservations, social activities...*)

Demonstration / Project Work

Task 1:

Design three types of posters based on cross-cutting issues (*informative, advertising, educative...*)

Tip

1. Learners to apply upper and lower case typography in the posters designed
2. Designed posters should have clear interpretations of given themes (intended communication)
3. Learners to identify and describe the three types of posters (*informative, advertising, educative...*) respectively

Critique

Task 2: Display and critique designed posters

Tip

Ensure posters have a clear message, appropriate use of colours for the intended target audience.

Expected Standard

Various posters on crosscutting issues to convey messages designed creatively

Assessment

- Clarity of message
- Creativity and originality
- Effective use of colours and design elements
- Overall aesthetic appeal.

Summary

This topic emphasised the importance of Graphic Design in communicating vital messages through posters. Learners gained practical skills in poster creation while exploring significant social and environmental issues.

SUB-TOPIC 1.5.2 COMPUTER AIDED DESIGN (CAD)

Introduction:

Computer Aided Design (CAD) is a powerful tool used by designers to create precise drawings and models. This topic will introduce learners to the fundamentals of CAD and its application in designing various types of (*e-cards, business, greeting cards, Architectural Designs, Product Designs, Mechanical Designs...*)

Specific Competence:

1.5.2.1 Design various types of cards using a computer

**Learning Activities****Learning Environment Set-up:**

- i. Indoor: Computer lab with CAD software installed.
- ii. Outdoor: Access to natural light for inspiration.
- iii. Technological: Use of projectors for demonstrations and presentations.

Suggested Learning & Teaching Materials:

- ☐ Computers
- ☐ Projector and screen
- ☐ Sample card designs (printed and digital)
- ☐ Art supplies for brainstorming sessions

Activity 1: Defining Computer Aided Design**Discussion****Task 1:** Define and discuss Computer Aided Design (CAD)**Group Work****Activity 2:** Designing various types of cards using a computer (*E-cards, animated cards. Digital invitation, Christmas, anniversary, birthday, graduation, Easter, Kitchen party...*)**Exploration/ Research****Task 1:** Make designs using a computer**Activity 3:** Relating careers to computer aided designing (*Architectural Designer, Product Designer, Mechanical Designer...*)**Research Project:** (*learners explore different careers that utilize CAD*)**Task 1:** Research and present on a career related to CAD (Architectural Designer, Product Designer...).**Tip**

Invite a guest speaker (Computer Studies Teacher/ Expert) to share their experiences and the importance of CAD in their work.

Expected standard: Various cards designed using a computer accurately.

Assessment

- Evaluate the designs based on creativity, adherence to design principles, and technical execution in CAD.
- Group presentations on career research will be assessed for content and presentation skills.

Summary

This topic provides foundational knowledge and practical skills in Computer Aided Design, preparing learners for further studies or careers in graphic design and related fields.

TOPIC 1.6 PATTERN AND DESIGN

Introduction

Patterns and Designs

The topic discusses patterns and designs around the environment, shaping our emotions, behaviours and interactions. Patterns influence our experiences through various forms (*architecture, fashion...*).

This topic, will explore the world of patterns, designs, covering their forms, applications and their significance. By doing so, patterns and designs will be appreciated in relation to how they impact lives around the world. The sub topics will further explore the basics of pattern and design, looking at different types and how they are used in art (*buildings, clothes...*)

General Competences: Creative and innovation, analytical thinking, collaboration, problem solving skills.

Key Terms /Words/Vocabulary

- ❑ **Motif:** repeated element or design unit used in a pattern or composition. It can be a shape, symbol, or image that is repeated to create a larger design.
- ❑ **Repetition:** repeated use of a motif or element in a design or pattern. It can create rhythm, unity, and emphasis.
- ❑ **Rhythm:** the creation of a visual tempo or beat through the repetition of elements, such as motifs or colours. It can guide the viewer's eye through the composition.
- ❑ **Symmetry:** the quality of being balanced and harmonious in terms of shape, size, and position. It occurs when one half of an object or design is a mirror image of the other half.
- ❑ **Asymmetry:** occurs when an object or design does not have a mirror image or balance between its parts. Asymmetry can create visual interest and dynamic composition.

SUB-TOPIC 1.6.1 PATTERNS

Introduction

In this topic, the focus is aligned with Pattern design which is the creation of repeating designs or motifs, often used to add visual interest and beauty to various surfaces, objects and materials. Pattern design involves the arrangement of shapes, colours and textures in a repetitive and harmonious way.

Pattern also uses the art elements in planned or random repetition to enhance surfaces or paintings or sculptures. Patterns often occur in nature, and artists use similar repeated motifs to create pattern in their work. Pattern increases visual excitement by enriching surface interest.

Specific Competence:

1.6.1.1 Make patterns

Learning Activities

- **Learning Environment set up:**

- ☐ in-door (classroom...)
- ☐ out-door (school premises)
- ☐ natural (natural motifs- flowers, leaves, butterflies...)
- ☐ artificial (textured shoe sole, textured wall, pictures...)
- ☐ technological (digital/ video watching)

Suggested Learning & Teaching Materials:

- (i) Charts and diagrams on patterns
- (ii) Videos/documentaries about patterns
- (iii) Printed motifs/ printed fabric (Chitenge...)
- (iv) Art and Design textbooks
- (v) Matching Artworks of patterns

Activity 1: Identifying examples of patterns (*Artificial and natural...*)

Demonstration/ Research/ Discussion

TASK 1: Create examples of artificial and natural patterns using various materials (*paper, paint, fabric...*)

Tip

Learners to research and make illustrations on artificial and natural patterns.

Task 2: Identify and label examples of artificial and natural patterns in a given set of images. Artificial patterns (stripes and polka dots in fabric, wall paper, ceramics, Geometric shapes in Architecture design) Natural patterns (leaves and flowers for shapes, colours, arrangements. Rocks for textures and formation.

Tip

Display learner's works in order to demonstrate knowledge of artificial and natural patterns.

Activity 2: Identifying motif types

Discussion and Pair work

Task 1: In pairs, sort the different types of identified Motifs (*Geometric, Organic, Abstract...*)

Tip

Write learners answers on the chalk board as they present and outline the correct types of motifs with learners after presentations.

Activity 3: Exploring with various motif designs

Demonstration/Exploration

TASK 1: Explore various motif designs by creating new designs using various materials (*paper, paint, fabric...*)

Tip

1. Encourage learners to create variation of an existing motif design, exploring different colours, shapes and pattern.
2. Learners can combine two or more motif designs to create new and unique designs.

Activity 4: Making patterns (*Random, regular*) *Block (potato printing...)*, stencil, linocut and intaglio

Discussion

Task 1: Discuss the materials used for each technique (potato for potato printing, stencils for various shapes and designs, linoleum blocks for linocut printing, intaglio plates for intaglio printing, ink and paint for various colours, paper and fabric for various textures and colours...)

Exploration

Task 2: Make patterns (Random, regular) using various techniques, (*potato printing, stencil printing, linocut printing, intaglio printing...*)

Tip

1. Encourage learners to incorporate pattern inspirations into their own designs
2. Guide learners to experiment with different materials techniques and patterns

Expected standard: Patterns made creatively

Assessment

- ☐ Observation of learners during pattern making activities
- ☐ Review of learners' art works for composition, texture and colour.

Summary

This topic looked at a variety of creative expressions of Pattern designs and types of patterns.

TOPIC: 1.7 DRAWING AND PAINTING FROM IMAGINATION**Introduction:**

This topic will help learners unlock the power of their imagination, it will give them freedom to explore their thoughts, emotions, experiences and express them in a visual language. Drawing and painting from imagination is a creative process that allows learners to tap into their inner world and bring forth unique and innovative ideas.

It involves generating art works from ones' own imagination. It will also allow them cultivate their creativity and originality, express their emotions and inner world and create innovative art works. By drawing and painting from imagination, learners will develop their critical thinking and problem solving skills.

General Competences:

Creative and Innovation, Analytical thinking, Collaboration, Communication.

**Key Terms /Words/Vocabulary**

- ☐ **Creativity** (The ability to generate new and original ideas.)
- ☐ **Imagination** (The ability to form mental images or concepts.)
- ☐ **Abstraction** (the process of simplifying forms into essential elements)
- ☐ **Expressionism** (Art movement that emphasizes expressing emotions and inner experiences.)

SUB-TOPIC 1.7.1 IMAGINATIVE COMPOSITIONS**Introduction**

Imaginative Composition is the creative process of arranging visual elements and principles to convey visual representations, ideas, emotions or stories. It involves imagination and artistic skills to create meaningful images. The learners will be exposed to Imaginative composition as a key aspect of drawing and painting. It involves arranging visual elements to evoke emotions, convey ideas and engage the viewer's imagination in order to attend to situations outside real-life (*fiction, abstract, non-realistic narrations...*)

Specific Competence:

1.7.1.1 Compose pictures based on a given theme

**Learning Activities****Learning Environment set up:**

- ☐ in-door (*classroom set-up...*)
- ☐ out-door (*at the market, school premises, outside the classroom...*)
- ☐ natural (*interacting with natural /organic shapes...*)
- ☐ artificial (*graphic software, photo montage...*)
- ☐ technological (*graphics, Computer Aided, Artificial intelligence- AI...*)

Suggested Learning & Teaching Materials:

- i. Reference books
- ii. Online materials (pictures, videos...)
- iii. Samples of already made artworks
- iv. Paper
- v. Paint, pencils, markers, pens

**Learning Activities**

Activity 1: Composing pictures from given themes (*my family, market place, hunting...*)

Brainstorming and Discussion

Task 1: Discuss Imaginative composition

**Tip**

1. Learners are introduced to concepts of Imaginative composition and its importance to Art.
2. Display a video/ show examples of imaginative compositions from various artists and styles.

Task 2: Select one of the given themes that resonate appropriately with guided Imaginative composition titles (*My family, market place, hunting...*)

**Tip**

1. Give learners a list of themes to choose from in order to compose imaginative pictures.
2. Encourage learners to take a few minutes to brainstorm ideas related to their chosen theme. They can think about their personal experiences, memories or emotions associated with the theme.

Activity 2: Interpreting ideas and Crosscutting issues (*environmental education, GBV, National values and principles...*)

Demonstration

Task 1: Learners create art works using recycled materials, depicting environmental issues (*climate change, conservation...*)

**Tip**

Engage learners in a debate assigning them with different perspectives on an environmental issue for better interpretation of ideas and crosscutting issues.

Activity 3: Drawing and Painting (*Landscape, Village Scenery, Townscape...*)

Field Trip and Discussion

Task 1: Go on a field trip to a nearby park or village scenery /town scape to observe and

sketch (*landscapes, village scenery, town scape...*)

Task 2: Learners draw and paint imaginative pictures based on the ideas got from the tour.

Tip

Organise a field trip or virtual tour for learners to evoke / insight imaginative experiences.

Expected Standard: Pictures based on a given theme composed creatively

Summary

In this topic, we looked at how drawing and painting from imaginations unlock the power of imagination. It gave learners the freedom to explore their thoughts, emotions, experiences and expressed them in a visual language. Learners also cultivated their creativity and originality, expressed their emotions as well as their inner world and created innovative art works.

TOPIC 1.8 DRAWING AND PAINTING FROM OBSERVATION

Introduction:

Drawing and painting from observation is a fundamental skill for artists, allowing them to accurately capture the world around them.

This topic explores the techniques and principles of drawing and painting from observation, helping artists refine their skills and create more realistic and engaging works. By observing and rendering subjects directly, artists develop their ability to see and represent the finer details of light, form, texture, and colour.

By directly observing their subjects, artists can *(develop their observational skills and attention to detail, improve their rendering techniques and artistic expression, create authentic and realistic representations of the world...)*

General competence(s):

Analytical Thinking, Communication, Creativity and Innovation, Collaboration, Critical Thinking

Key Terms /Words/Vocabulary

Observation: the act of carefully studying and noting the details of a subject

Rendering: creating a detailed and accurate representation of a subject

Proportion: the relationship between the size and scale of different parts of a subject

Perspective: creating the illusion of three-dimensional space on a two-dimensional surface

Value: the lightness or darkness of a colour or object

Chiaroscuro: use of strong contrasts between light and dark to create a sense of volume and depth

Colour theory: the study of how colours interact and affect each other

SUB-TOPIC: 1.8.1 DRAWING OR PAINTING FROM NATURAL OR MAN-MADE OBJECTS

Introduction:

Drawing and painting from observation enhances learner's ability to capture the world around them accurately. This topic focuses on observing and representing both Natural and Man-made objects through various drawing techniques.

Specific Competence:

1.8.1.1 Draw and or paint pictures from observation

Learning Activities

Learning Environment Setup:

- ☐ Indoor (*Art room with good lighting, easels...*)

- ☐ Outdoor (*Access to gardens, parks, or urban settings for live observation...*)
- ☐ Technological (*Use of tablets for digital drawing/painting applications...*)

Suggested Learning & Teaching Materials:

- i. Drawing/ Painting (*bond paper, sugar paper, black paper...*) and sketchbooks
- ii. Pencils, charcoal, paints (*watercolour, acrylic...*)
- iii. Easels (drawing/ painting stand) and drawing boards
- iv. Reference images of objects (if needed)

Activity 1: Drawing and/or Painting from Observation

Demonstration/ Guided Practice

Task 1: Choose a natural object (*tree, flower, fruit...*) and create a detailed drawing or painting from observation.

Tip

Encourage learners to focus on light effect on natural objects (*shadow, texture ...*) to enhance realism in their work.

Demonstration/ Guided Practice

Task 2: Select a Man-made object (*a building, a piece of furniture...*) and create a complete drawing or painting that highlights its features.

Tip

1. Encourage learners to focus on light effect on Man-made objects (*shadow, texture ...*) to enhance realism in their work
2. Emphasise on the need to capture the foreground, mid-ground and background as part of the compositions

Expected Standard: Pictures from observation drawn and or painted skillfully

Assessment

- ☐ Evaluate learners' artworks based on accuracy, creativity, and the application of techniques taught and skills acquired.
- ☐ Provide constructive feedback during peer reviews.

Summary

This topic exposed learners to acquire skills in drawing from observation and represent their surroundings through drawings and paintings, fostering artistic skills and appreciation of the visual world of Natural and Man-made objects.

TOPIC 1.9 DRAWING AND PAINTING FROM STILL LIFE

Introduction

In this topic, the learners will acquire skills such as, creativity, observation and analytical thinking. Still life drawing and painting is an artistic style that captures the aesthetics and essence of static objects, often arranged in deliberate compositions. From everyday household items like fruit and books to symbolic or luxurious objects, artists use light, colour, texture, proportion and composition to convey meaning and emotion.

By exploring the relationships between objects, artists create visually captivating works that reveal the extraordinary in the ordinary, often touching on themes like mortality, aesthetics, and the passage of time. Through Still Life art, artists can experiment with technique, challenge perceptions and invite viewers to slow down and appreciate the details of the everyday world.

Key Terms /Words/Vocabulary

Composition: Arrangement of objects in a still life setup.

Proportion: Relationship between the size of objects in the setup.

Value: Lightness or darkness of objects, used to create contrast.

Colour / Hue: is an important art element that defines the reflection of light on an object.

Still life arrangement / Drawing motif: Objects arranged in a specific way to create a composition (*a recurring theme element or pattern used in a composition to create unity, emphasis or rhythm adding depth and visual interest in an art work...*)

SUB-TOPIC 1.9.1 STILL LIFE DRAWING AND OR PAINTING

Introduction

Still life drawing and painting offers numerous benefits that can enhance skills, creativity and overall artistic growth. Fundamental skills like; Observation, form rendering and color theory are developed.

Specific Competence:

1.9.1.1 Compose pictures from Still life

Learning Activities

Learning Environment Set-up:

- ☐ in-door (*art room, studio...*)
- ☐ out-door (*a stack of arranged rocks, at the scrap metal junk yard, part of an engine...*)
- ☐ technological (*mechanical approach, digital platforms...*)

Suggested Teaching and Learning Materials:

- i. Paint Brushes
- ii. Pencils: Graphite, charcoal, or coloured pencils used for drawing.

- iii. Drawing papers: (*Bond, manila...*)
- iv. Paints: Oil, acrylic, or water-colour paints used for painting.
- v. Pastels: Soft, powdered media used for drawing and painting.
- vi. Ink: Liquid or gel media used for drawing and illustration.

Activity 1: Composing pictures from Still life

Discussion, Demonstration and Individual work

Task 1. Learners should sketch and draw arranged house-hold objects (*pot, cup, dish, sugar bowl...*).

Tip

1. Encourage learners to observe the set-up carefully and pay attention to:
 - ☐ Shape, texture and form
 - ☐ Value (light and dark)
 - ☐ Balance and proportion
2. Demonstrate step by step how to capture a given Still life arrangement, display already made teaching aids or invite an expert. Learners can be shown online drawing/ painting tutorials.

Expected standard: Pictures from still-life composed appropriately.

Assessment

- ☐ Evaluate Still life drawings based on shape, texture, form, value (light and dark), balance and proportion.
- ☐ Peer- Self assessment: task learners to assess and provide feedback on each other's works, promoting critical thinking and constructive criticism.

Summary

In this sub-topic, different pictures were composed from Still-life drawing and or painting. The key techniques and principles acquired and applied were, observation, rendering, composition, colour theory, lighting and shading.

TOPIC 1.10 FIGURE DRAWING

Introduction

The topic will discuss the fundamental skills like proportion, pose, gesture and line art. Stick-Figure introduces the learners to basics on the use of line and shape in order to create simple imagery.

Stick Figure (human) Drawing is the art of creating simple animate features using lines in various shapes to represent the torso and the limbs which leads to more complex designs such as animations, infographics, signage and other defined visual media.

General Competences:

Analytical Thinking, Collaboration, Communication, Creativity and Innovation, Critical Thinking

Key Terms /Words/Vocabulary

Medium: The material or technique used to create a work of art, such as painting, drawing, sculpture, or digital art.

Line: A continuous mark made on a surface by a drawing tool, used to define shape, suggest movement, or create texture.

Shape: A self-contained area with height and width, often used to create composition, balance, and harmony in a work of art.

Balance: The arrangement of visual elements to create a sense of stability and equilibrium, often achieved through symmetry, asymmetry, or radial composition.

SUB-TOPIC: 1.10.1. STICK FIGURE DRAWING

Introduction

Stick Figure Drawing is a creative process that involves generating visual representations on a two-dimensional surface, such as paper, canvas, or digital screens. This art form utilizes various techniques, including drawing, painting, and digital illustration, to produce images that convey emotions, ideas, and messages.

Specific Competence:

1.10.1.1 Compose Stick-Figures

Learning Activities

Learning Environment set-up:

- ☐ In-door: (classroom, studio, computer lab...)
- ☐ Technological (mechanical approach, digital platforms...)

Suggested Learning & Teaching Materials:

- (i) Pencil
- (ii) Paper/ wall surfaces
- (iii) Eraser

Activity 1: Defining Stick Figure Drawing

Discussion

Task 1: Learners define and discuss Stick Figure Drawing

Tip

Give the learners a brief account about the value of Stick Figure Drawing as a prelude to major designing.

Demonstration

Activity 2: Composing Stick-figures (*Persons in action...*)

Discussion and demonstration

TASK 1: Design a Stick-figure of Persons in action such as:

1. Running
2. Walking
3. Swimming
4. Cooking
5. Bathing

Tip

1. Emphasize on the concept of visual storyline in a short creation

Note: Stick Figure Drawings offer several advantages such as;

- i. Minimal materials
- ii. Minimal skill required
- iii. Easily and clearly conveys actions, poses and basic concepts
- iv. Creates visual notes for easy recall

Expected standard: Stick-figures composed creatively

Assessment

- ☐ Make an assessment to ensure that learners develop a deeper comprehension and value of Stick Figure Drawing.
- ☐ Prepare the tasks and allocate time for practical and oral assessments based on Stick Figure Drawings.

Summary

This topic, looked at composing Stick Figure Drawings in action, simplicity and clarity over detailed realism.

The ultimate expectation in this topic was to help learners develop fundamental drawing skills, practice gesture drawing and create simple, yet expressive and proportionate figures.

- i. In-door (Art Room)- **a cup**

TEACHING AND LEARNING MATERIALS/ RESOURCES:

Pencils: (2B Graphite, charcoal sticks), A4 – white Bond drawing paper

Expected standard: Pictures from still-life composed appropriately.**LESSON PROGRESSION:**

STAGES	TEACHER'S ACTIVITY AND METHODS	LEARNERS' ACTIVITY	ASSESSMENT CRITERIA

INTRODUCTION	Brainstorming	Provide constructive feedback based on peer reviews.	Provide constructive feedback during peer reviews.
5 Minutes	- Recap on previous lesson (Drawing from Observation) Discussion - Define Still Life	Expected feedback: (Objects arranged in a specific way to create a composition)	
LESSON DEVELOPMENT	Discussion / Demonstration	Activity 1:	
110 Minutes	Task 1: - Introduce the concepts of Still Life Drawing. (composition, shape, light and shadow, form and texture) Demonstration - Task learners to sketch and draw a cup arranged on a low flat base. - Go round and guide/ encourage learners to work collaboratively	Brainstorming and highlighting concepts of Still life drawing as guided by teacher - sketch and draw a cup by experimenting with different drawing tools (pencils/ charcoal) - learners to observe the set-up carefully and pay attention to composition, shape, light and shadow, form and texture - learners to work collaboratively and freely to appreciate peer drawing working styles	- Assess prior knowledge of Still life drawing concepts - Assess learner's ability to experiment with different tools creatively. - Evaluate the learner's Ability to apply concepts of Still life drawing by sketching and drawing
EXERCISE / APPLICATION	Task 1: Curation /Critiquing Display readily drawn art works (Curation)	Identifying and critiquing Still Life drawing concepts of readily drawn artworks (Critique)	- Assess learners' ability to identify and curate Still Life concepts depicted in the readily drawn artworks - Ability to apply Still Life drawing concepts (composition, shape, light and shadow, form and texture)

CONCLUSION 5 Minutes	Review key concepts: Ask learners to reflect on Still Life drawing concepts (composition, shape, light and shadow, form and texture)	● Sharing reflections and insights on Still Life drawing concepts (composition, shape, light and shadow, form and texture)	● Evaluate learners' abilities to applying Still Life drawing concepts to real world situations.

HOMEWORK: Carry over incomplete work

LESSON EVALUATION:

Having taught the lesson, 65 out of the 75 learners present, managed to achieve the expected lesson standards and competences. 10 out of the 75 learners did not achieve the expected lesson competences and standards, this was due to their inability to achieve first stages of sketching and drawing the objects in good time. The learners were then given remedial time during prep time and given carry-home work.

The teacher was able to ensure collaboration was upheld throughout the lesson and gave individual learner attention at sketching and drawing stages.

Overall, the lesson was successfully attained at about 86% rate.
