Vision

Quality, lifelong education for all which is accessible, inclusive and relevant to individual, national and global needs.

Authors

The **Curriculum Development Centre** would like to acknowledge professional contributions to this teaching module by a team of committed experts from various learning institutions and a team of our staff from CDC for coordinating the process exceptionally well. Ladies and gentlemen, your commitment and invaluable contributions towards this project will go a long way in the implementation of the Competence Based Curriculum.

NAME	DESIGNATION	ORGANISATION/SCHOOL
Dr.Mbozi Santebe	Lecturer	University of Zambia

Preface

The **History Teaching Module** has been developed to guide a Teacher on how to deliver content in the 2024 History Syllabus. The Module aims to facilitate the provision of quality education that is aligned with the **Competence Based Curriculum**. Furthermore, the module aims to support a Teacher to help learners attain the competences, knowledge, skills, values and positive attitudes that enable children to live and grow into productive and useful members of their communities and the Zambian society as a whole.

The content/topics provided in this module are aimed at facilitating holistic development of learners. The suggested activities are designed to offer hands-on experiences through learner centered approaches. Thus, the learners will develop knowledge, desirable lifelong skills, values and positive attitudes needed for their personal and national development.

It is hoped that the module will make learning History at Ordinary Level Secondary more meaningful and enjoyable as it is highly activity oriented.

Kelvin Mambwe (PhD)
Permanent Secretary- Educational Services
MINISTRY OF EDUCATION

Acknowledgement

The **History Teaching Module** presented here is a result of broad-based consultation involving several stakeholders within and outside the education system.

We are grateful for the financial and technical support provided by teachers, Lecturers from Colleges of Education and Universities, Subject Associations, Civil Society Organisations and Cooperating Partners. Their invaluable input and expertise have enriched the content and quality of this teaching module.

We also acknowledge the dedication and hard work of the staff at the Curriculum Development Centre, whose tireless efforts ensured the successful completion of the Teaching Module development process.

Thank you all for your contributions.

Charles Ndakala (Dr.)
Director - Curriculum Development
MINISTRY OF EDUCATION

Introduction

The **History Form 1 Teaching Module** has been prepared by the Ministry of Education under the Directorate of Curriculum Development to kick start the implementation of the 2024 **Competence Based Curriculum**.

The Module covers some of the topics offered at form 1 level, particularly in term 2. The module has been designed in alignment to the 2024 Competence Based Curriculum. The material covered is in full response to the demands and dictates of the new Curriculum. The new curriculum is Competent Based and focuses on applied skills and knowledge that enable learners to successfully perform in professional, educational and other life contents. The Module is therefore, aimed at producing a learner that will be globally accepted based on their vast interpretation of the past, present and the future.

The suggested learner activities are designed to offer hands-on experiences through learner centered approaches.

Teachers are however, advised to explore more avenues of learner activities so as to maximise the exploitation of skills in learners. The module is not an end in itself.

It is hoped that the module will make learning History at Ordinary Level Secondary more meaningful and enjoyable as it is highly activity oriented.

TOPIC 1.5: THE BEGINNING AND SPREAD OF IRON WORKING AND FARMING

Introduction

The beginning of iron working and farming in the Middle East and its spread to Africa transformed the livelihoods of people in Zambia. This topic will discuss the development of iron technology and farming.

Hook: *Imagine how life would be without farming and iron tools! How did farming start? Were iron tools always there since the beginning of human life? How did people farm before the invention of iron tools? How did people begin to make iron tools? We will answer some of these questions in this topic.*

General Competences

- ☐ Analytical thinking
- ☐ Communication
- ☐ Creativity and Innovation
- ☐ Critical thinking
- ☐ Evaluation
- ☐ Digital
- ☐ Entrepreneurship
- ☐ Environmental sustainability

KEY WORDS

Agriculture: refers to crop production and rearing of livestock

Farming: refers growing of crops and rearing of animals

Fertile Crescent: refers to an area between rivers Tigris and Euphrates in the Middle East where farming began in the world.

Livestock: Domesticated animals like goats, pigs, chickens, cattle and many more

Iron: refers to a mineral extracted from rocks used to farming tools

Barter system: refers to the exchange of goods for goods among the various groups of people in the past

SUB-TOPIC 1.5.1: DEVELOPMENT OF IRON-TECHNOLOGY AND FARMING

This sub-topic explains the development of iron technology and farming. It will locate on the map early areas of farming and iron working, identify settlement areas of Iron Age Farmers in Zambia, relate Ing'ombe Ilede to the global trade environment and analyse the importance of iron technology.

Specific Competence 1.1.5.1: Analyse impact of Iron technology in farming**Learning Activities:**

- ☐ Locating on the map early areas of farming and Iron working
- ☐ Identifying settlement areas of Iron Age farmers in Zambia
- ☐ Relating Ing'ombe Ilede to the global trade environment
- ☐ Analysing the importance of iron technology

**LEARNING ACTIVITY 1****Locating on the map early areas of farming and iron working****Suggested teaching and learning materials**

- ☐ Map showing early areas of farming and iron working in the Middle East and Africa.

Teacher to conduct the following activities in order to help learners locate on the map early areas of farming and iron working in the Middle East and Africa

- ☐ Ask learners prior to the lesson to research on early areas of farming and iron working in the Middle East and Africa
- ☐ Ask learners to present their findings
- ☐ Display a map showing early areas of farming and iron working in the Middle East and Africa
- ☐ Ask learners to draw the map
- ☐ Consolidates using the map

In this activity, learners will locate on the map early areas of farming and iron working in the Middle East and Africa

**CONTENT TIPS****Early Areas of Farming and Iron working in the Middle East**

- ☐ Farming began around 10000 BC in the Middle East between rivers Tigris and Euphrates known as Fertile Crescent or Mesopotamia.
- ☐ Iron working was started by the Hittites of Asia Minor (Turkey) who began the use of iron to make tools around 3000 B.C.

Early Areas of Farming and Iron working in Africa

- ☐ From the Middle East, knowledge of farming and iron working spread to Egypt along the Nile Valley around 650 B.C.
- ☐ In Africa, iron working began along the Nile Valley in Egypt and spread to Sudan (Kush) where an iron working centre was established at Meroe.
- ☐ The knowledge of iron working then spread further to Ethiopia (Axum).

In this learning activity, learners will locate on the map early areas of farming and iron working in the Middle East and Africa.

LEARNING ACTIVITY 2

Identifying settlement areas of Iron Age farmers in Zambia

Suggested teaching and learning materials

- ☐ Map showing settlement areas of Iron Age farmers in Zambia

Teacher to conduct the following activities to enable learners identify settlement areas of Iron Age farmers in Zambia

- ☐ Brainstorming: Ask learners to mention settlement areas of Iron Age farmers in Zambia
- ☐ Display a map showing settlement areas of Iron Age farmers in Zambia
- ☐ Ask learners to identify settlement areas of Iron Age farmers in Zambia
- ☐ Consolidate key points for the learners
- ☐ Instruct learners to draw the map

CONTENT TIPS

Settlement areas of Iron Age farmers in Zambia

- ☐ Kalundu and Isamu Pati in Kalomo District
- ☐ Ing'ombe Ilede in Siavonga District

LEARNING ACTIVITY 2

- ☐ **Relating Ing'ombe Ilede to the global trade environment.**

Suggested teaching and learning materials

- ☐ Chart showing trade at Ing'ombe Ilede
- ☐ A table showing trade imports and exports to relate Ing'ombe Ilede to the global trade environment.

Teacher to conduct the following activities to enable learners relate Ing'ombe Ilede to the global trade environment

- ☐ Display a chart showing trade at Ing'ombe Ilede
- ☐ Ask learners to study the chart
- ☐ Conduct a class discussion based on the chart
- ☐ Ask learners to draw the diagram on the chart
- ☐ Ask learners to refer to the chart to complete the table

Complete the table below:

Items found at Ing'ombe Ilede	Items imported at Ing'ombe Ilede	Items exported from Ing'ombe Ilede.

**CONTENT TIPS****Relating Ing'ombe Ilede to the Global Trade Environment**

Ing'ombe Ilede was an Early Iron Age trading centre located near the confluence of Zambezi and Lusitu rivers in Siavonga District, Southern Province.

- ☐ The people of Ing'ombe Ilede possessed salt and ivory
- ☐ They imported gold and ivory from the south as far as Zimbabwe
- ☐ Copper, slaves, ivory and iron objects were imported from the north as far as Katanga
- ☐ These items attracted foreign traders from Asia and the Middle East
- ☐ These traders came to Ing'ombe Ilede from the east coast using the Zambezi River
- ☐ They brought iron objects, beads, sea shells and cloth
- ☐ This led to the integration of Ing'ombe Ilede into the international trade environment
- ☐ Similarly, modern Zambia has natural resources which enables it to be involved in global trade
- ☐ Zambia exports goods such as minerals, maize and electricity to other countries
- ☐ It also imports goods like oil, machinery, foodstuffs, and other goods

In this lesson learners will relate Ing'ombe Ilede to the global trade environment.

**LEARNING ACTIVITY 4**

Analysing the importance of iron technology

Suggested teaching and learning materials

- ☐ Pictures of Iron Age tools used in agriculture, fishing, hunting and trading or
- ☐ Actual iron tools

The following activities should be carried out by the teacher to enable learners analyse the importance of iron technology

- ☐ Ask learners to mention the Iron Age tools used in agriculture, fishing, hunting and trading
- ☐ Consolidate learners' responses using pictures
- ☐ Divide learners in groups
- ☐ Ask learners in groups to analyse the importance of iron technology in agriculture, fishing, hunting, trading and construction
- ☐ Ask group representatives to make presentations to the class
- ☐ Write the main points on the board
- ☐ In this learning activity learners will analyse the importance of iron technology

**CONTENT TIPS****The importance of Iron technology**

- ☐ **Agriculture:** Iron technology led to increased food production. Iron tools like hoes, axes and picks enabled early farmers to cultivate large portions of land.

- ☐ **Increased Population:** Increased food production led to population increase
- ☐ **Fishing:** Iron technology led to increased improved fishing using iron tools such as spears and hooks.
- ☐ **Hunting:** Iron technology improved hunting through use of spears and arrows made of iron. In modern times guns made of iron components are used to hunt animals by those with licences
- ☐ **Trading:** Black smith make iron tools such as hoes, axes, slashers, cutters for sale on the market. Metal fabrication industries also make modern iron equipment and tools for sale for revenue generation.
- ☐ **Construction:** Iron is used in roofing houses, making window frames, building poles and others to establishment permanent infrastructure
- ☐ **Migration:** Iron tools encouraged people to migrate into new areas of settlement

Expected standard

Importance of iron technology analysed correctly

SUMMARY

The beginning of iron working and farming changed the ways of life of the people in different societies. This is because it led to improved trade, food production, hunting, construction, migration and others.

ASSESSMENT

(Assessments can be done during and after each learning activity)

1. What challenges would early and modern farmers have faced if Iron-Technology had not been discovered?
2. You have observed a reduction in food production in your community. Using the knowledge of iron technology and farming, how would you promote crop production in your local community?
3. Many young people in Zambia today have remained jobless even after acquiring tertiary education. Explain how young people can utilise iron technology to earn a living.

TOPIC: 1.6 THE BANTU SPEAKING PEOPLE

Introduction

The Bantu speaking people are a diverse group of people who have similarities in languages, culture and religious beliefs. This topic discusses the early Bantu settlement in Africa, Bantu migrations into Zambia, decentralised and centralised societies in pre-colonial Zambia.

Hook: *What language is the word 'Bantu'? Some people say that the Bantu are only found in Zambia. This topic will answer a lot of unanswered questions about the Bantu people.*

General Competences

- ☐ Analysis
- ☐ Communication
- ☐ Citizenship
- ☐ Critical thinking
- ☐ Digital

KEY WORDS

Bantu: refers to a group of Africans found south of the Sahara who have similar languages and culture.

Migration: the movement of people from one place to another in search of food or better living conditions.

Benue Region: the region in West Africa where the Bantu Speaking people are believed to have originated from.

Sub-Saharan Africa: the area of Africa located south of the Saharan desert where the Bantu people migrated and settled.

Settlement: the act of establishing communities in new areas.

Paramount chief: a chief who has overall control over sub-chiefs.

Tribute: a show of loyalty to the traditional leaders through giving items and labour.

SUB-TOPIC:1.6.1: EARLY BANTU SETTLEMENT IN AFRICA

This sub-topic will discuss the term Bantu. It will also identify the Bantu speaking people and locate on the map their early settlement in West Africa. It will further outline reasons for early Bantu migrations from West Africa and analyse the course of the migrations.

Specific Competence 1.6.1.1:

Locate origins of the Bantu Speaking people of Africa

Learning Activities

- ☐ Discussing the term, Bantu.
- ☐ Identifying the Bantu speaking people.
- ☐ Locating on the map of Africa, early Bantu settlement in West Africa.
- ☐ Outlining reasons for early Bantu migration from West Africa.
- ☐ Analysing the course of the early Bantu Migrations from the West Africa.

LEARNING ACTIVITY 1

Discussing the term Bantu

Suggested teaching and learning materials

Flash cards bearing the word “person”

Teacher should conduct the following activities with learners in order to discuss the term Bantu

- ☐ Divide learners in groups
- ☐ Distribute flash cards bearing the word “person”
- ☐ Instruct learners to discuss and write the word “person” in different languages
- ☐ Ask learners to analyse similarities in the words
- ☐ Ask group representatives to present their findings to the class
- ☐ Write and consolidate the points from the learners

In this activity learners will discover that some words are similar among the Bantu speaking people. For example, the word “person” had similar pronunciations from different languages that learners used.

CONTENT TIPS

- ☐ The Bantu are people who speak similar languages
- ☐ For example, the word “person” has the root “ntu” and the prefix “mu” in various Bantu languages
- ☐ The term Bantu refers to a large family of languages spoken across central Eastern and Southern Africa

LEARNING ACTIVITY 2

Identifying the Bantu speaking people

Suggested teaching and learning materials

Map showing some groups of people found in Africa

Activity 1: Identifying the Bantu Speaking People

The following activities should be carried out by the teacher to enable learners identify the Bantu speaking people

- ☐ Prior to this lesson, ask learners to carry out a research about the Bantu speaking people

History

- ☐ Divide learners into groups
- ☐ Distribute maps showing groups of people found in Africa
- ☐ Ask learners to identify the Bantu speaking people from the maps
- ☐ Instruct group representatives to report their findings to the class
- ☐ Write the points on the board.

In this activity, learners will be able to identify the Bantu speaking people in Africa

CONTENT TIPS

There are many groups of Bantu speaking people in Africa

For example, Luba, Lunda, Zulu, Ndebele, Sukuma, Shona, Yao, Kikuyu and many others

LEARNING ACTIVITY 3

Locating on the map of Africa early Bantu settlement in West Africa

Suggested teaching and learning materials

Blank map of Africa

The following activity should be carried by the teacher to help learners locate the early Bantu settlement in West Africa

- ☐ Divide learners into small groups
- ☐ Distribute blank maps of Africa
- ☐ Ask each group to locate the early Bantu settlement in West Africa on the blank map provided
- ☐ Instruct learners to mark the area settled by Bantu-speaking people in West Africa
- ☐ Ask groups to share their completed maps with the class
- ☐ Display the map showing the Benue Valley in West Africa

In this learning activity, learners will discover the location of the early Bantu settlement in West Africa.

CONTENT TIPS

- ☐ The early Bantu settled in West Africa in the Benue Region located between Lake Chad and the Cameroon Highlands.

LEARNING ACTIVITY 4

Outlining reasons for early Bantu migrations from West Africa

Suggested teaching and learning material

Document containing information explaining reasons for the Bantu migrations from West Africa

The following activities should be conducted by the teacher in order for learners to outline reasons for early Bantu migrations from West Africa;

- ☐ Ask learners to work in groups
- ☐ Distribute documents explaining reasons for the Bantu migrations from West Africa
- ☐ Ask learners to study the document
- ☐ Tell learners to discuss the reasons for the Bantu migrations from West Africa
- ☐ Ask group representatives to report their findings to the class
- ☐ Write the main points on the board
- ☐ Instruct the learners to copy the points in their books

In this activity learners will outline the reasons for the Bantu migrations from West Africa

**CONTENT TIPS****Reasons for the Bantu migrations from West Africa**

- ☐ Population increase
- ☐ Search for fertile land
- ☐ Drought and climate change
- ☐ Conflicts and wars
- ☐ Diseases
- ☐ Love for adventure and exploration
- ☐ Iron working technology
- ☐ Expansion of trade
- ☐ Witchcraft
- ☐ Slave trade
- ☐ Succession disputes
- ☐ Family quarrels

**LEARNING ACTIVITY 5**

Analysing the course of the early Bantu Migrations from West Africa

Suggested teaching and learning material

Map of Africa showing the routes of the Bantu migrations from West Africa

The following activities should be conducted by the teacher to enable learners analyse the course of the Bantu migrations from West Africa:

- ☐ Display a map on the course of the Bantu migrations from West Africa

History

- ☐ Ask learners to study the map
- ☐ Guide learners to discuss the course of the Bantu migrations from West Africa
- ☐ Summarise the main points

In this activity learners will analyse the course of the Bantu migrations from West Africa

CONTENT TIPS

The course of the Bantu migrations from West Africa

- ☐ The Central route: movements from West Africa into the Congo Basin forming the Luba and Lunda kingdoms
- ☐ The Eastern route: movements from West Africa into the Great Lakes region such the Baganda, Banyoro, Basoga, and others proceeded southwards such as Tonga, Shona and Nguni groups
- ☐ The Western route: movement from West Africa into Southern Africa such as Ovambo, Okavango, Herero. Some settled in Angola, Namibia

Expected standard: origins of the Bantu Speaking people in Africa located correctly

SUMMARY

This sub-topic has discussed the term Bantu, identified the Bantu speaking people located the early Bantu settlement in West Africa. It has also outlined the reasons for Bantu migrations from West Africa and analysed the course of the Bantu migrations

SUB-TOPIC1.6.2: BANTU MIGRATIONS INTO ZAMBIA

The Bantu migrations were one of the most significant movements of people in African History. This sub-topic will discuss the causes for movement of Bantu-speaking people into Zambia. These migrations shaped the linguistic, cultural and social structures of modern day Zambia.

Specific Competence 1.6.2.1: Use knowledge of common origins of Zambian people to promote national unity

Learning Activities

- ☐ Discussing causes for movement of various Bantu Speaking groups into Zambia.
- ☐ Discussing the course of Bantu migrations into Zambia.
- ☐ Drawing a map of Zambia showing historical settlements for Bantu Speaking people.
- ☐ Analysing the effects of Bantu migrations on national unity.
- ☐ Using shared heritage to foster national unity in Zambia.

LEARNING ACTIVITY 1

Discussing causes for movement of various Bantu Speaking groups into Zambia.

Suggested learning and teaching material

Chart showing causes for migrations in modern day Zambia

- ☐ Chart showing causes for Bantu migrations

The following activities should be carried out by the teacher in order for learners to discuss the causes for Bantu migrations into Zambia:

- ☐ Ask learners to draw table showing causes for migrations in modern day Zambia and complete it
- ☐ Display a chart showing causes of the Bantu migrations into Zambia
- ☐ Ask learners to classify the causes into political, economic and social categories as shown in the table
- ☐ Conduct a whole class discussion to consolidate the causes of the Bantu migrations
- ☐ Instruct learners to write the consolidated points
- ☐ Causes for migrations in modern society

OPPORTUNITIES	CHALLENGES

Causes for Bantu migrations into Zambia

POLITICAL	ECONOMIC	SOCIAL

In this activity learners will analyse the political, economic and social causes for the Bantu migrations into Zambia.

CONTENT TIPS

Causes for the Bantu migrations into Zambia:

From Katanga

- ☐ Conflict over land
- ☐ Expansion of powerful kingdoms
- ☐ Internal conflicts and wars
- ☐ Succession disputes
- ☐ Shortage of water resources
- ☐ Desire to receive tribute and control trade
- ☐ Discovery and use of iron technology
- ☐ Need for fertile land

- ☐ Shortage of pasture for animals
- ☐ Social causes
- ☐ Adventure
- ☐ Family quarrels
- ☐ Overpopulation in their original homeland
- ☐ Witchcraft

From South Africa

Effects of Mfecane

- ☐ The wars of Shaka led to a wave of wars and forced migrations across southern Africa. Many groups like the Ngoni, Ndebele and the Kololo migrated to escape Zulu military expansion

LEARNING ACTIVITY 2

Discussing the course of Bantu migrations into Zambia

Suggested teaching and learning materials

Map showing the course of the Bantu migrations into Zambia from the Great Lakes Region, Katanga and Southern Africa

The following activities should be conducted by the teacher to enable learners to discuss the course of the Bantu migrations into Zambia.

- ☐ Display the map showing the course of Bantu migrations into Zambia
- ☐ Ask learners to draw the map
- ☐ Instruct learners to study the map to trace migration routes of the Bantu speaking groups into Zambia
- ☐ Whole class discussion on the course of the Bantu migrations into Zambia

In this activity, learners will discuss the course of the Bantu migrations into Zambia

CONTENT TIPS

The course of the Bantu migrations into Zambia highlights the resilience of early communities and their ability to adapt to new environments

- ☐ Movement from the Great Lakes Region
- ☐ The Bantu who migrated in to this group include the Tonga, Lungu and Tabwa. They moved from East Africa and settled Zambia.
- ☐ Movement from Katanga
- ☐ From Luba include: Bemba, Chewa, Soli, Lenje, Lala, Lamba, Tumbuka and many more
- ☐ From Lunda include: Lozi, Lunda, Luvale, Chokwe, Mbunda, Kaonde and many
- ☐ Movement from South Africa
- ☐ This included the Ngoni and Kololo

LEARNING ACTIVITY 3

Drawing a map of Zambia showing historical settlements for Bantu Speaking people.

Suggested teaching and learning material

Map of Zambia

The teacher should carry out the following activity to enable learners draw a map of Zambia showing historical settlements of the Bantu speaking people

- ☐ Display the map showing historical settlements for Bantu speaking people
- ☐ Ask learners to draw the map in their books
- ☐ Consolidates the information on the map

In this activity learners will draw the map of Zambia showing historical settlements for Bantu speaking people in Zambia.

**CONTENT TIPS****The Historical settlement for Bantu speaking people in Zambia**

- ☐ Central province- Lala, Lenje, Swaka, Sala and many more
- ☐ Eastern province – Chewa, Chikunda, Nsenga, Ngoni, Senga, Tumbuka and many more
- ☐ Luapula province –Lunda, Kabende, Ushi, Chishinga and many more
- ☐ Muchinga province – Bemba, Bisa, Lambia, Namwanga and many more
- ☐ Northern province – Bemba, Mambwe, Lungu,
- ☐ North-western – Lunda, Luvale, Chokwe, Kaonde, Luchazi, Mbunda, Ndembu and many more
- ☐ Southern province – Tonga, Ila, Toka-leya, Ila and many more
- ☐ Western province – Lozi, Nkoya, Subiya, Nyengo, Kwangwa, Mbunda and many more
- ☐ Lusaka province- Soli, Lenje
- ☐ Copperbelt province- Lamba

**LEARNING ACTIVITY 4**

Analysing the effects of Bantu migrations on national unity

Suggested teaching and learning material

- ☐ Chart showing effects of the Bantu migrations on national unity

The teacher should carry out the following activities to enable learners to analyse the effects of the Bantu migrations on national unity

- ☐ Ask learners prior to this lesson to find out if the Bantu migrations have contributed to national unity
- ☐ Divide learners into two groups to debate the motion: ***Bantu migrations brought national unity in Zambia***
- ☐ Summarise the debate by analysing the effects of Bantu migrations on national unity. Teacher must emphasise that the Bantu migrations have contributed to national unity

In this activity learners will analyse the effects of the Bantu migrations on national unity.

**CONTENT TIPS**

Effects of the Bantu migrations on national unity

- ☐ Shared heritage – common identity promotes national unity.
- ☐ Cultural exchange – as different communities settled they shared customs, traditions and values that fostered national unity.
- ☐ Diverse ethnic groups share same historical experiences based on common origins. This is a unifying factor.
- ☐ Pre-colonial political structures provided early models of leadership and community cohesion that later influenced modern state-building.
- ☐ Intermarriages and social bonds help break ethnic barriers leading to stronger social bonds that contribute to national unity.
- ☐ The need to coexist in a shared territory prompts new social norms and practices.
- ☐ Migrating groups brought with them new innovations in agriculture, iron working and trade which contributed to a shared economy.

**LEARNING ACTIVITY 5**

Using shared heritage to foster national unity in Zambia

Suggested teaching and learning materials

Pictures depicting shared heritage (such as ceremonies, traditional attire, languages)

The teacher should conduct the following activities in order to enable learners use shared heritage to foster national unity in Zambia

- ☐ Circulate pictures depicting shared heritage.
- ☐ Ask learners to study the pictures
- ☐ Ask learners to analyse how the pictures depict the use of shared heritage to foster national unity
- ☐ Whole class discussion
- ☐ Consolidates and writes the main points
- ☐ In this activity learners will learn to use shared heritage to foster national unity

**CONTENT TIPS**

- ☐ Shared heritage refers to common cultural, historical and social elements that different ethnic groups in Zambia have.
- ☐ Examples of shared heritage in Zambia include ceremonies, traditional attire, food, songs, shrines and others.
- ☐ They help to foster appreciation and understanding of each other's culture.
- ☐ Zambian societies emphasise values such as respect, hospitality and communal living which are shared across different ethnic groups.
- ☐ Proverbs and folk tales from different tribes often carry similar messages about unity

- and cooperation
- ☐ Language as a unifying factor: some local languages such as Bemba, Nyanja Tonga and Lozi are widely spoken across different regions
 - ☐ Intermarriages and social integration.
 - ☐ Shared heritage fosters national unity by promoting mutual respect, encouraging patriotism, building peace, social cohesion and strengthening national pride.

Expected standard: knowledge of common origins of Zambian people used to promote national unity accordingly

SUMMARY

This sub-topic has discussed the causes and course for migrations of the Bantu Speaking groups into Zambia, illustrated the historical settlement of the Bantu speaking people using a map of Zambia and analysed the effects of Bantu migrations on national unity. It has also shown how shared heritage is used to foster national unity in Zambia.

SUB - TOPIC 1.6.3:

DECENTRALISED SOCIETIES IN PRE-COLONIAL ZAMBIA.

Decentralised societies in pre-colonial Zambia were communities or ethnic groups that did not have a centralised form of government. These societies were organised around clans, lineages, or family groups, with leadership distributed across elders or village heads. This subtopic will identify and locate on the map of Zambia decentralised societies in areas of settlement. It will also analyse key features of decentralised societies.

Specific competence 1.6.3.1: Analyse features of decentralised societies

Learning Activities

- ☐ Identifying decentralised societies in Zambia
- ☐ Locating on the map of Zambia areas of settlement for decentralised societies
- ☐ Analysing key features of decentralised societies in general.

LEARNING ACTIVITY 1

Identifying decentralised societies in Zambia.

Suggested teaching and learning material

Chart showing decentralised societies in Zambia

The following activities should be conducted by the teacher to enable the learners identify decentralised societies in Zambia

- ☐ Display chart showing decentralised societies in Zambia
- ☐ Ask learners to study the displayed chart
- ☐ Consolidates the points on decentralised societies
- ☐ Ask learners to write the list in their books

In this activity learners will identify the decentralised societies in Zambia.

CONTENT TIPS

These were societies that did not have a strong central government and were not ruled by kings or chiefs.

Examples of decentralised societies in Zambia include the Tonga, Ila, Lenje, Sala, Soli and others.

LEARNING ACTIVITY 2

Locating on the map of Zambia areas of settlement for decentralised societies.

Suggested teaching and learning materials

- ☐ Map of Zambia showing the location of decentralised societies
The teacher should conduct the following activities in order for the learners to locate on the map the areas of settlement for decentralised societies
- ☐ Display the map
- ☐ Ask learners to draw the map of Zambia and indicate the location of decentralised societies
- ☐ Consolidate the points

In this activity learners will locate the decentralised societies on the map of Zambia

CONTENT TIPS

Areas of settlement for decentralised societies in Zambia

- ☐ Southern province – Tonga, Ila
- ☐ Central province – Lenje, Sala
- ☐ Lusaka province - Soli

LEARNING ACTIVITY 3

Analysing key features of decentralised societies in general.

Suggested teaching and learning materials

Document containing information on features of decentralised societies

The following activities should be conducted by the teacher in order to enable learners analyse key features of decentralised societies in general

- ☐ Divide the class into groups
- ☐ Distribute the documents containing information on features of decentralised societies
- ☐ Ask learners to study the documents
- ☐ Instruct learners to discuss and write the features of decentralised societies
- ☐ Ask group representatives to present their findings to the class
- ☐ In this activity learners will analyse the key features of decentralised societies

CONTENT TIPS

Key features of decentralised societies in Zambia

- ☐ Loose political structure – they did not have chiefs and kings, leadership was

distributed among village elders, clan leaders or family heads.

- ☐ They were mainly farmers, who grew crops such as millet and sorghum and kept livestock such as cattle goats, sheep and pigs. They also reared chickens.
- ☐ They were involved in local trade.
- ☐ They did not have organised military structure and this exposed them to attack from powerful groups.
- ☐ Societies were organised around extended families with strong kinship ties. Ceremonies, traditions and oral history played a role in maintaining cultural identity and governance.

Expected standard: features of decentralised societies analysed accordingly

SUMMARY

In this sub-topic, we have identified and analysed the key features of decentralised societies. We have also located the decentralised societies on the map of Zambia.

SUB-TOPIC 1.6.4: CENTRALISED SOCIETIES

Centralised societies are societies that have a strong central government and are led either by a chief, king or queen. This sub-topic will identify the centralised societies in pre-colonial Zambia, locate the centralised societies on the map and analyse their key features in general. It will also show how features of centralised societies are integrated in modern Zambia.

Specific Competence 1.6.4.1: Integrate features of centralised societies in modern Zambian society.

Learning Activities:

- ☐ Identifying centralised societies in pre-colonial Zambia
- ☐ Locating centralised societies on the map of Zambia
- ☐ Analysing key features of centralised societies in general
- ☐ Integrating features of centralised societies in modern Zambia

LEARNING ACTIVITY 1

Identifying centralised societies in pre-colonial Zambia

Suggested Teaching and Learning Materials:

Chart showing centralised societies in Zambia

The following activities should be conducted by the teacher to enable learners identify centralised societies in Zambia

- ☐ Display chart showing centralised societies in Zambia
- ☐ Ask learners to study the chart
- ☐ Consolidates the points on centralised societies
- ☐ Ask learners to write the points in their books

In this activity learners will identify the centralised societies in pre-colonial Zambia.

CONTENT TIPS

Examples of centralised societies in pre-colonial Zambia include the Bemba, Chewa, Kaonde, Lunda, Luyi, Luvale and Ngoni.

LEARNING ACTIVITY 2

Locating centralised societies on the map of Zambia

Suggested Teaching and Learning Materials:

- ☐ Map of Zambia showing the location of centralised societies

The teacher should conduct the following activities in order for the learners to locate on the map the areas of settlement for centralised societies

- ☐ Display the map
- ☐ Ask learners to draw the map of Zambia and indicate the location of centralised societies
- ☐ Consolidate the points

In this activity, learners will locate areas of settlement of the centralised societies on the map of Zambia.

CONTENT TIPS

Centralised societies in pre-colonial Zambia

- ☐ Bemba kingdom – located in northern Zambia ruled by the king known as chief Chitimukulu.
- ☐ The Lozi kingdom - located in western Zambia ruled by the Litunga.
- ☐ The Lunda kingdom – located in the Luapula region led by Chief Mwata Kazembe.
- ☐ The Chewa kingdom – located in the Eastern region led by Chief Gawa Undi
- ☐ The Ngoni kingdom – located in Eastern Zambia led by Chief Mpezeni

LEARNING ACTIVITY 3

Analyse key features of centralised societies in general

Suggested Teaching and Learning Materials

Document containing information on features of centralised societies

The following activities should be conducted by the teacher in order to enable learners analyse key features of centralised societies in general

- ☐ Distribute the documents containing information on features of centralised societies
- ☐ Ask learners to study the documents
- ☐ Instruct learners to discuss and write the features of centralised societies
- ☐ In this activity learners will analyse the key features of centralised societies in general.

CONTENT TIPS

The following are the features of centralised societies:

- ☐ In a centralised society, chiefs had centralised political power.
- ☐ The Chief was helped to rule by the senior chiefs, sub-chiefs and Village headmen.
- ☐ Chiefs controlled trade routes for salt, ivory, copper and slaves.
- ☐ All the centralised societies received tributes in form of food, labour and goods from their subjects and the conquered people.
- ☐ Chiefs also organised traditional ceremonies which brought all the people within the kingdom together. For example, Ukusefya pa Ngwenya (Bemba), Kuomboka(Lozi), Ncwala(Ngoni), Umutomboko (Lunda), Likumbi Lya Mize(Luvale) Kulamba(Chewa).
- ☐ Centralised societies had well organised army to defend the kingdom and expand territories. For example, the Ngoni had a warrior based system.

LEARNING ACTIVITY 4

Integrating features of centralised societies in modern Zambia

Suggested teaching and learning material

- ☐ Chart showing features of centralised societies in modern society
- ☐ Pictures showing features of centralised societies in modern Zambian society

The teacher should conduct the following activities in order to help learners show how features of centralised societies have been integrated in modern Zambian society

- ☐ Divide learners into groups
- ☐ Ask learners to draw the table
- ☐ Ask learners to complete the table by showing how features of centralised societies have been integrated in the modern Zambian society.
- ☐ Ask learners to present their work to the class
- ☐ Display a complete chart showing how features of centralised societies have been integrated in the modern Zambian society.
- ☐ Ask learners to copy the completed table in their books.

Features	Centralised societies	Modern Zambian society
Centralised political power		
Monopoly of trade		
Tribute system		
Traditional ceremonies		
Strong military structure		

In this activity learners will show how features of centralised societies have been integrated in modern Zambian society.

CONTENT TIPS

Features of centralised societies have been integrated in modern Zambian society in the following ways:

Centralised political power

Zambia being a republic has an elected president who is helped to rule by ministers, members of parliament, councilors and district commissioners. This clearly shows how the Zambian system of governance functions similarly to chiefs and paramount chiefs. Zambian government has embraced traditional leadership through the House of Chiefs established in 1965 to date with 50 members. Chiefs have continued to be in charge of traditional affairs and offer advice the president on traditional matters.

Monopoly of trade

The government manages economies through trade regulations and public services.

Tribute system

The government also collects taxes from its citizens through the Zambia Revenue Authority and distributes to different sectors or areas of need to foster development. This can be likened to the tribute system of pre-colonial Zambia.

Traditional ceremonies

In pre-colonial Zambia, traditional leaders used traditional ceremonies to unite people. Similarly in modern Zambia, successive governments have been using traditional ceremonies to foster national unity.

Organised military structure

Centralised societies had organised armies to maintain stability. Modern societies rely on defense forces and police for national security. Like the Chiefs and Kings in pre-colonial Zambia, the President of Zambia is the commander of the armed forces.

SUMMARY

This sub-topic has identified centralised societies in pre-colonial Zambia, located centralised societies on the map of Zambia and analysed key features of centralised societies in general. It has also shown how features of centralised societies have been integrated in modern Zambian society.

ASSESSMENT

1. In most of the Pre-colonial Centralised societies of Zambia, the Chief controlled the Army. Why is it an important aspect of every society including modern Zambia to have an army centrally controlled?
2. Most Pre-colonial societies in Zambia were located in specific regions of the country. However, people have now changed and different ethnic groups are now settling in any part of the country. What factors have contributed to this change in settlement patterns?
3. How can historical awareness contribute to fostering a sense of understanding, respect and unity among various ethnic and cultural groups within Zambia?

SUMMARY

This topic has located the early Bantu settlements in Africa, discussed the Bantu migrations into Zambia and identified decentralised societies in pre-colonial Zambia. It has also analysed key features of decentralised and centralised societies.

SAMPLE LESSON PLAN

SCHOOL: BROADWAY SECONDARY SCHOOL

NAME OF TEACHER: NTALASHA PHIRI

DATE: 10/ 06/ 2025

CLASS: Form 1 B

DURATION: 40 Minutes

TIME: 08:20-09:00

LEARNERS PRESENT: 52

BOYS: 24

GIRLS: 28

SUBJECT: History

TOPIC: 1.6. THE BANTU SPEAKING PEOPLE

SUB-TOPIC: 1.6.2 Bantu migrations into Zambia

SPECIFIC COMPETENCES: 1.6.2.1 Use knowledge of common origins of Zambian people to promote national unity

LEARNING ACTIVITY

- Discussing causes for movement of various Bantu Speaking groups into Zambia

RATIONALE: This lesson is on Bantu migrations into Zambia. The lesson will help learners apply knowledge of the common origins of Zambian people to foster national unity and this will be done through group work, teacher exposition and question and answer. This is the third lesson in the series of four.

PRIOR KNOWLEDGE: Learners already have knowledge about the origins of the Bantu speaking people

REFERENCES: Haantobolo, G. Junior Secondary History, pp. 22-25

TEACHING AND LEARNING MATERIALS/RESOURCES

Document containing information explaining reasons for the Bantu migrations from West Africa

EXPECTED STANDARD: knowledge of common origins of Zambian people used to promote national unity accordingly

LESSON PROGRESSION:

STAGES	CONTENT	TEACHER'S ROLE	LEARNERS' ROLE
INTRODUCTION 5 Minutes	Expected Answers • Western route • Central route • Eastern route	Question and Answer • Teacher to revise the previous lesson by asking a question: • Name the routes the Bantu used during their migrations from West Africa.	Respond to the question

LESSON DEVELOPMENT 20 Minutes	Causes for movement of various Bantu Speaking groups into Zambia Expected Answers From Katanga Political , economic and social causes From South Africa Effects of the Mfecane	- Ask learners to draw table showing causes for migrations in modern day Zambia and complete it. - Display a chart showing causes of the Bantu migrations into Zambia - Ask learners to classify the causes into political, economic and social categories as shown in the table - Conduct a whole class discussion to consolidate the causes of the Bantu migrations - Instruct learners to write the consolidated points	- Draw the table showing causes for migrations in modern day Zambia and complete it - Study the chart display - Classify the causes into political, economic and social categories as shown in the table - Conduct a whole class discussion to consolidate the causes of the Bantu migrations - Write the consolidated points.
EXERCISE 5 Minutes	Describe opportunities that make people in Zambia migrate from rural areas to urban areas.	Task learners to describe opportunities that make people in Zambia migrate from rural areas to urban areas.	- Individual activity to be written in books - Describe opportunities that make people in Zambia migrate from rural areas to urban areas.
HOMEWORK 5 Minutes	Find out on tribes that migrated from Katanga into Zambia	Task individual learners to Find out on tribes that migrated from Katanga into Zambia	Individually, find out on tribes that migrated from Katanga into Zambia
CONCLUSION 5 Minutes	Recapitulating key points of the lesson accordingly	Emphasise key points	Recapitulating the key points of the lesson

LESSON EVALUATION:

The lesson was successfully taught. Learners participated in the lesson. 90 percent of the learners answered all questions in the exercise correctly. There is need for remedial work for learners who did not answer some questions correctly.
