- Learners made to explain what would happen if the place was left like that.
 - Learners explain what should be done to maintain that environment
 - Learners work together to
 - i. Rearrange the area (corner)
 - ii. Pick disposable litter
 - iii. Dispose off the litter into the correct place
 - iv. Sweep the place
 - v. Dust the area
- Teacher should ensure that there is working together among the learners as they care for the area (corner).

E. Break/ snack time

- Prayer/ washing hands/ sharing with others/ eating ...

F. Learning through play

Relay around the shape (outdoor).

- Put the learners in groups
- Each group pick a shape from the shapes traced during the first session of the lesson of this day; circle, triangle, rectangle.
- Each group of learners divides itself into smaller groups of the number of points that make the shape e.g., the triangle group can be 3 smaller groups, rectangle group can be in 4 smaller groups while the circle group can be as many as possible for as long as they form a circle.
- The starting point can have various materials that can considered as litter (plastic bags, plastic bottles, paper, containers for food, cans) and need to be disposed of.
- Learners one point near the bunch of litter pick one piece and assign one person to take it to the next point around the shape and relay it.
- The group that receives it, pick e person to relay to the next group until the last group picks a person who will take the picked litter to the designated place.
- Rotation takes place; the last group together with one who relayed the litter move to the first, while the first move to the second and so on.
- When each smaller group has had chance to pick the litter, relay the litter and dispose of the litter, the game is over and the whole group celebrates.

G. Brief evaluation

- Back to the sharing space in class
- Teacher engages the learners in
 - i. Discussing how interesting or uninteresting the lesson of the day was
 - ii. Discussing the most important take away they have made in the lesson for the day.
 - iii. Discussing how they will use what they have learned in school, at home, at church, along the road etc.

H. Free play

- Teacher tells learners that they will engage into free play after picking any litter lying about, around the classroom and dispose it of correctly.

- Teacher provides any available equipment (balls, skipping ropes, ropes, hoops ...) to reinforce the free play.

ASSESSMENT:

Ability of the learners to

talking about the experience (shopping); when, with whom, why (purpose), where, what was bought, the feeling

Identify syllables in given oral words (litepa; li – te-pa, sikoni; si – ko – ni, ...)

trace various shapes (circular, triangular, rectangular)

keep the environment clean (arranging things, cleaning, disposing of litter ...)

LESSON EVALUATION

- 1) Examine the fairing of the learners in line with:
 - a) the tasks that form the activity?
 - b) The activity itself?
- 2) How does the work for the day point to the realization of the specific competences from the learning areas in the lesson?
- 3) Did the methodology help? If yes, how? If not, why? What would be the way forward?
- 4) Show the effect of the Teaching & Learning Materials in the execution of the tasks within the activity or the competence.
- 5) Would you say the lesson was a success or not? If yes, how? If not, why? What should be the way forward.
